

We have recently launched a new product which can be used to manufacture raised and fielded or flat panelled FD 30 and 60 fire resisting doorsets. The SW board system has been fire tested at Chiltern International Fire in accordance with BS 476 Part 22

We can provide a system and schedule of products to allow the manufacture of these doors without the need for our customers to fire test in their own right.

The system is supplied with our range of Pyrostrip® and Enviroseal® range to provide fire-cold smoke and acoustic performance.

Vision panels using our Pyroglaze range in conjunction with a variety of glass products can also be incorporated into the design.

For more information please contact Lindsey Hulin on 01252 333601 or [lindsey@mannmcgowan.co.uk](mailto:lindsey@mannmcgowan.co.uk)

Glass and Glazing Federation

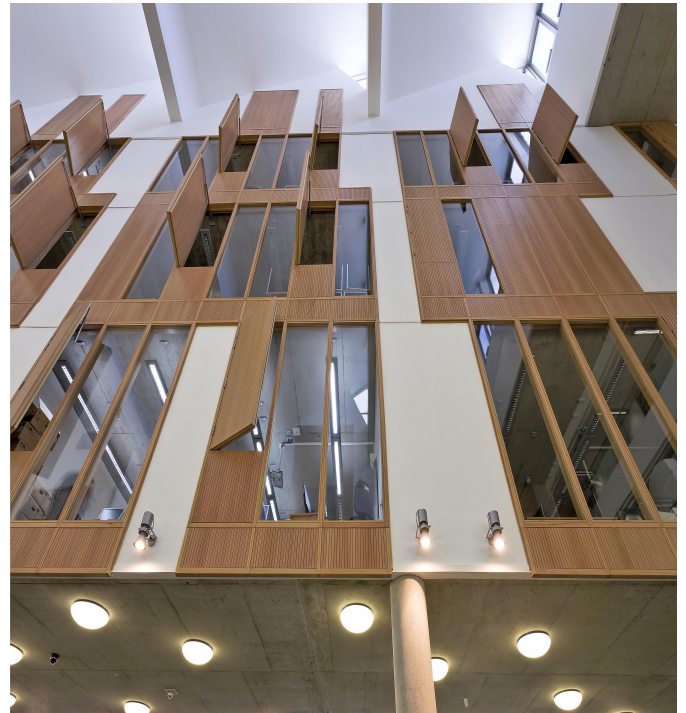

Mann McGowan® Group Director Kevin Hulin has been elected as Chairman of the Fire Resisting Glazing Group of the GGF. This specialist group is committed to the development and advancement of best practice in the manufacture, testing, specification, application and installation of fire resisting glazed systems.

For more information please contact the GGF by visiting [www.ggf.org.uk](http://www.ggf.org.uk)

#### **MANN MCGOWAN INSTALLATIONS**

North Glasgow College

This new £23 million campus is located in Springburn and is a 16900m<sup>2</sup> development comprising of a central glazed atrium. Our Pyrovista® fire resisting glazed screen was used throughout fitted with 23mm thick Pyrostop and 25mm Swissflam as well as acoustic timber panels being incorporated into the design.

We are proud to announce that three members of our staff have completed the GAI's level 1 Education Programme. Lindsey, Jamie and Russell have all worked diligently to complete the required course-work which covers a variety of subjects. Our congratulations go to all three of them.

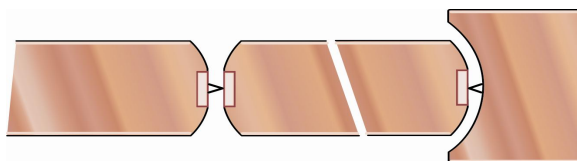

CPD seminars continue to be a popular method of enhancing knowledge throughout the construction sector. During 2009 we have delivered over 50 seminars to a wide variety of construction professionals.

Please contact our CPD Coordinator Debbie Knight for details on 01252 333601 or email [debbie@mannmcgowan.co.uk](mailto:debbie@mannmcgowan.co.uk)

### BM TRADA CERTIFICATION

The BM Trada Fire Door Manufacturers Scheme comprises of a number of fire door manufacturers and processors. This 3<sup>rd</sup> party product accreditation scheme includes door cores manufactured by Halspan, Falcon Products, Pacific Rim and Blank fort among others.

Our range of Intumescent seals can be used in the construction of fire doors made with these cores. These products include Pyrostrip 100, 300 and 500 grades, Pyroglaze 30 and 60, Palusol and Interdens,

### CONGRATULATIONS

For the sport minded among our readers we send our hearty congratulations to the England cricket team for their recent ashes success against our old rivals Australia. We perhaps should be circumspect in sending this copy of The Intumescent to our customers in the Southern Hemisphere!
